-A society called "The New Charity" has been in successful operation for two years in Phila-The fundamental idea delphia. is to help the needy to help themselves, instead of qiving them money, food, or clothing. There are about one thousand philanthropic ladies included in the district visitors, whose purpose is not only to learn the condition of poor and refieve temporary distress, but o prove aseful friends by encouraging those who are needy, stimulating their -elf-respect, and aiding them to find ways of earning their own living by honest work, even if that work is not of the kind to which they are accustomed, or what they would desire. The members of the society endeavor to rescue the coor from mendicancy by showing them ow much more self-respecting it is to lig than to beg, to wash than to receive ilms. It is stated that by the labors of his "New Charity" the city's ap-propriation for the out-door poor has been reduced many thousands of dollars.
